Mr. Dwyer stated a concern regarding traffic and what can be done for that area of the city. Ms. Barron provided clarification that public infrastructure improvements within the boundary are eligible for reimbursement. Mr. Zech further clarified that off-site improvements that support the project are also eligible.

Mr. Thompson stated this project could highlight Pflugerville as a destination. Mr. Mason asked about the residential section pricing and if people could afford the housing. Mr. Wallace provided information regarding competitive pricing with quality so they do not price themselves out of the market.

Mr. Dwyer also stated concern about residential pricing, if that area is the correct fit, how it will affect the surrounding areas, and will it price people out of housing. Mr. Williams asked about risk to the board. Mr. Wallace clarified the assessed value has to be met before reimbursement from the board.

Mr. Marsh asked about revenue to the city as the city expenses offsite infrastructure improvements. Mr. Wallace stated there is elastic revenue such as sales tax.

Mr. Thompson stated three areas of potential risk: Societal risk as development is dropped into an area that hasn't seen that before. Legislative as there is no way to know what's going to happen every two years. Economic as there can be no expectations from the market five years in the future.
